

7/07
Hi Eric;

I wanted to thank you for all of your help & support with my back pain. Because of the exercises you taught me & your thorough explanations & support, I have experienced a substantial reduction in day to day back pain. After years of search I finally found something that has worked!

You certainly live up to the claims on your web-site about individual care & ^{friendly} service. My experience was all good under your care.

Thank you again & Take good care!
